Nutrient Work Group and Interested Parties;

Please find attached draft Department Circular DEQ-12B. DEQ would appreciate your review and comments on this updated document and we will discuss it at the next Nutrient Work Group meeting on Monday, March 27th. Please note that the Table 12B-1 table values are still to be determined (TBD) for the mechanical facility groups, pending feedback from the Nutrient Work Group. You may find it easier to read the circular by clicking on the 'Review' tab, and then to the right of the Track Changes icon click the mini drop-down box and select "Final" (it will look as final, but it is still in track-changes mode).

Thank you-
